## **ROHTO GROUP POLICY FOR ADDRESSING CLIMATE CHANGE**

Acknowledging that climate change is a global issue that materially affects the natural environment and society, we will strive to address climate change to realize a carbon-neutral goal that reduces greenhouse gas emissions to net zero by 2050.

1. We will quantify CO<sub>2</sub> emissions discharged from our business activities, and strive to reduce the emissions (from Scopes 1 and 2) by advancing the efficient use of energy, its reduction, and the utilization of renewable energy.
2. We will quantify CO<sub>2</sub> emissions discharged throughout the entire supply chain, and strive to reduce the emissions (from Scope 3) in cooperation and collaboration with our stakeholders.
